

HIRE FLEET

BEAM CHAIN HOISTS

OVERHEAD CHAIN HOISTS WITH CAPACITIES FROM 500KG TO 5,000KG

General Specification

Taylor's Hoists hire fleet is supplemented by the Morris range of Beam Chain Hoists, an industry standard established since 1884, today supplying highly reliable and productive overhead material handling equipment.

We provide some of the most advanced electric chain hoists currently available for hire. The S3 hoist range meet practically all chain hoist lifting applications no matter how tough the demands are. These quality chain hoists are compact and highly versatile with proven and long lasting performance in the most demanding environments.

Lifting capacities range from 500kg to 5,000kg.

General Specification	1 Ton Hoist	2 Ton Hoist
Pay-load Capacity	1,000kg	2,000kg
Lifting Speed	8m/min	4m/min
Horizontal Travel Speed	17m/min	17m/min
Maximum Lifting Height	30m	15m
Voltage	400V 3Ph 50 Hz	400V 3Ph 50 Hz
Power	1.6kW	1.6kW
Fused Protection	16amp	16amp
Unit Weight	500kg	500kg
